Put money into savings	Use money for rehabbing our Triangle parks	Put money in local schools for art and music programs	Spend more money on parties and events in Old Town	Donate more money to local charities	Put money in renovating the brick sidewalks in the Triangle	Renovate the Triangle building	Put money in maintaining the trees in the Triangle	Other (please describe)
Use the correct term: Reserve fund. When reserve has reached a sufficient amount the contribution can then be reduced to keep up with inflation, etc.	Beautification and UPKEEP are primary responsibilities of the Triangle	I am OK with current contributions, but not "more" contributions	\$YES (Builds community!)	I am ok with current donations, but not "more" donations	\$YES (Infrastructure improvements!)	\$ (if needed; I'm not familiar.)	\$YES (These are important to the health and beauty of the community!)	Without seeing the current expenditures, especially for "savings", it is hard to tell where the money is most needed.
do we have savings? do we need a rainy day fund? if so, then yes...	Consider fund-raising for specific parks. Make this a community project.	Leave what we already give in the budget	build and solidify neighbor to neighbor relations. And particularly in recognition of an upcoming 75th OTTA Anniversary celebration	keep this the same	Brick sidewalks and trees are my choice	Call it enhancing the building to make it visible, make it a marketing tool.	city can pay for this Care of Trees is a rip off !!	Trash cans and more clean up
No. I think that funds provided to OTT for community improvements should be spent rather than socked away, but if there has historically been a need to draw on savings I'd be interested in that information.	essential to maintain our community status and appeal within the city of Chicago	maintain good relations with school personnel	Delete the word party. Events bring the community together. It gives the wrong impression. This is an example of where a lesser amount of money can have a significant impact.	menomonee club absolutely zero to others its a small neighborhood community org not prizker foundation and some of board is using local charities to impress locals, improve their brand, make business contacts etc	bricks and parkway tree cost sharing programs to incent members to maintain the city property in front of their homes	does it need work? if so what? if helpful for events, etc then yes, does it need work? if so what? if helpful for events, etc then yes	in parkways and parks only	Top priority...update computer and data systems to become more automated and into the 21st Century :-)
No....OTTA has more than enough money hidden in the bank "rain fund"	maintaining our parks is most important; they don't need rehabbing; water is the greatest need, then trees and plants;	No. I think this is a worthy cause to which people should contribute but would be outside the scope of activities that directly benefit OTT community	no....we are not a social clubif so we need to raise the dues!!change the by laws!	No more money to local charities other than Menomenee Club which gets 20% of Art Fair proceeds	Fix the sidewalks	get better lights for art activities	Maintain trees and plant more.	Top priority is to keep our neighborhood in good repair. Then schools.

Put money into savings	Use money for rehabbing our Triangle parks	Put money in local schools for art and music programs	Spend more money on parties and events in Old Town	Donate more money to local charities	Put money in renovating the brick sidewalks in the Triangle	Renovate the Triangle building	Put money in maintaining the trees in the Triangle	Other (please describe)
spend to complete other projects below.	We have done our share we should be getting this from our aldermans	Only targeted money for specific needs with assurance that it will be used for that purpose only.		No. I think that OTT should make residents aware of local charities and promote their important work in community publications. Individuals can make their own choices about contributions, and won't have to argue about which charities are most deserving.	make it the responsibility of property owners. , make it the responsibility of property owners.	maintain. Upgrades/repairs often seem to be postponed. The lighting in the gallery room this year has been unreliable and a particular problem for students.	Parkway trees should be secondary to park trees. No one maintains park trees and residents are already responsible for their parkway trees. Save the parks first.	This could be the year to say that ..."Charity begins at home"
	Yes! We need to make these places to sit for a few moments and talk to neighbors. A few benches would go a long way.	would be dependent on schools and why they would need otta money but would most likely only lead to trouble as to which schools would get money and why others would be excluded schools should be funding themselves		this has already been increased recently. It may be a noble consideration but it is not in line with the OTTA mission statement and needs of the immediate neighborhood.	This is an on going maintainance responsibility affecting nearly every street in the Triangle	sell the building and rent it back so we dont have to maintain the space.	Parkway trees which technically belong to the city, yes. Trees which are the property of residents, no.	Support physical/aesthetic infrastructure - NOT parties, NOT charities, NOT schools
		yes - not sure what the money goes toward specifically? teachers? books? supplies, instruments?			With a significant portion of the cost shared by the property owner adjacent to the public property.	The Triangle Center very much needs a new updated lighting system. The Center had issues with lighting (where classes are held) last year, but the "fix" was only partial. Not only should the "exhibit" walls be lit, but the class area as well.	This is significant contribution to the community, a way of creating good will to the entire community and perpetuating the idea of a gallery under the trees for the art fair.	Something to consider...This is probably a big request but introduce Spanish language instruction to Lincoln School.

		Yes! Our two neighborhood schools, Lincoln elementary and Lincoln Park HS could use a lot of help in these areas!			Yes, where needed....I have noticed evidence for renovation		Thought that this was automatically done...	Smartphone/mobile app could include membership renewal, class sign up, iBot identification and info, etc.
		Zero.....no considering latest tax news			yes. part of the Old Town charm comes from the streetscapes....like Boston. We are letting them slip and while the houses look great our sidewalks detract from the image.			Rodent control
								Reprint OTT maps that include all of the triangle including Hudson, Mohawk and Meyer Court!
								Replacing trees in the Triangle
								pay for someone to teach art to kids
								organizations that use the space need to pay more for activities that go on in the building
								More trashcans in the triangle area!
								more community get together events

								Money should go to projects that will better the community and do not have city funds i.e. trees, parks, sidewalks, events that build community. Not churches, charities,
								maintenance of neighborhood amenities - trash cans for example
								Local security officer to patrol neighborhood
								LaSalle School makes lots of money on parking fees and renting the playground all summer to Steve and Kate's camp to spend some on maintaing the "beautification program" of the playground area!!
								Invest more into the Art Fair
								Instead of \$ amounts ask for order of importance. \$ amounts depend on specifics for each entry that can't be answered without significant information about each.

								install garbage cans throughout neighborhood and hang dog waste bags
								improving security / reducing crime (lighting, patrolling...)
								improved and historically correct street lighting
								I'd put up historical markers/plaques to denote important places in the Triangle.
								I think the money should be spent in a manner that improves overall neighborhood property values
								help neighbors in dire financial situations
								Garbage cans through out neighborhood. At no cost to Triangle change parking zoning to 6pm to 9;30am 7 days a week. Commuters, beach gorrers, shoppers leave residents with little parking. Bucktown and Gold Coast have much more restrictive residential
								Garbage cans added.

								<p>Thank you for asking what the neighborhood feels is important. I would like to use the last \$2500 to place garbage cans around the triangle. Hopefully, this would encourage people to dispose of their coffee cups, water bottles, and dog waste.</p>
